FORMAL NOTICE & DEMAND FOR ADMINISTRATIVE CORRECTION

Re: 23 Citations – Failure of Statutory Notice – O.C.G.A. 40-14-18

Date: February 5, 2026

From: Zachary Michael Mosley (DOB: 12/20/1994, License Plate: SCI7668)

I. PURPOSE OF NOTICE

This notice documents procedural defects affecting 23 citations and alleged fines totaling approximately \$4,500. These defects render the citations unenforceable under Georgia law and require administrative correction.

II. FAILURE OF STATUTORY NOTICE (O.C.G.A. 40-14-18(b)(2))

A. Address Transition

- I vacated my prior address in June 2025.
- I experienced temporary lodging until securing my residence at 701 Penn Waller Rd in August 2025.

B. DDS Verification

- My address was officially updated with the Georgia DDS on 10/03/2025.
- This is the address to which all notices were required to be mailed.

C. Notice Defect

- No citation notices were delivered to my verified Wilmington Island address.
- Because notice was never perfected, the statutory dispute period never commenced.
- Any enforcement action, including referral to the Department of Revenue, is therefore invalid.

III. EVIDENCE OF SYSTEMIC MALFUNCTION

A. Absence of Enforcement During 2025 Registration Renewal

- The earliest alleged citation dates back to 2024.
- I successfully renewed my registration in 2025 with no hold and no indication of unpaid citations.
- Under O.C.G.A. 40-14-18(h), a valid referral for unpaid citations would have resulted in a registration hold.
- Its absence demonstrates that no valid referral existed, no valid notice existed, and the citations were not properly entered into the enforcement system.

B. Absence of Enforcement During Recent Traffic Stop

- On January 31, 2026, I was stopped for a registration matter.
- The officer conducted a full check of my vehicle and registration status.
- No registration hold and no unpaid violations were shown in the system.
- Upon attempting renewal later that day, I discovered a registration hold for the first time.
- The Tag Office informed me of the hold on February 3 and directed me to 855-252-0086, where I was first informed of 23 alleged unpaid citations.
- These facts demonstrate that the citations were not visible to law enforcement and the enforcement chain remained incomplete as recently as last week.

C. Thunderbolt Technical Irregularity

- Two citations were issued in Thunderbolt within a two-minute interval.
- They were recorded under different camera identifiers, indicating a technical irregularity and potential duplicate enforcement.

D. Penn Waller Localized Clustering

- Between 18 and 20 citations were issued within a 0.2-mile radius of my residence.
- All but one of the Penn Waller citations were issued by the same officer (Roger Flannery).
- Atleast 4 separate days where I was cited more than once in the same day, literally as I was exiting my Apartment Complex Willcrest Woods on Penn Waller.
- This is far beyond excessive even by the admission of the Tag Office Employee who turned me away saying "join the club" earlier this week. I called your office yesterday as I was instructed, to formally notify you of my dispute & the failure to notify me at my address about a single one of them. Your representative said it was too late to dispute, which is legally not the case. I was never notified, never stopped, never was this communicated to me, so that I would have had a chance to address the issue before accumulating \$4500+ dollars worth of fines against my registration. Furthermore, even your service representative I spoke with yesterday admitted this seemed excessive & unusual, but that she could not do anything, & I could not appeal.

- Based on a quick websearch it seems like I'm far from the only one who's had issues with this Citation company, but I am not one who's going to stay silent & take it.

E. Metadata and Camera ID Rotation

- Penn Waller citations reflect multiple rotating camera identifiers, raising concerns regarding calibration and data integrity.

IV. NOTICE OF HARDSHIP

- The registration hold has impeded required travel for my primary employment (territory coverage from Jesup to St. Marys).
- The accumulation of undisclosed fines has created significant financial strain and risks my housing stability.

V. REQUIRED ADMINISTRATIVE ACTION

Based on the statutory and procedural defects outlined above, the following actions are required:

1. Dismissal of all 23 citations.
2. Removal of the associated registration hold.
3. Correction of my official mailing address to match DDS records.
4. Written confirmation of these corrections.

VI. RECORD PRESERVATION

I have been waiting on a call back about this getting the run around from everyone involved. I was told I'd receive a call back from your office today ViolationPayment.net, & I am not waiting anymore for your convenience, while I lose my job & potentially my housing if I continue to go back & forth for answers.

A copy of this notice and a full audit of the citations will be retained as part of my administrative record.

Attached: Driver's license, voter registration, and lease agreement.

Citation List:

1. BL-28TQLN6T
2. BL-12G7IB18
3. BL-12JNJ2WQ
4. BL-28KP4VBY
5. BL-28SDELIU
6. BL-28FJD4K8
7. BL-286VIDP1
8. BL-28QU8WH6
9. BL-28JILS3B
10. BL-28ESS338
11. BL-28FC4THB
12. BL-28TNJSW7
13. BL-28FETAGG
14. BL-28GU8DL8
15. BL-28844QUJ
16. BL-58AM240C
17. BL-28CJQF4L
18. BL-285A8NS3
19. BL-28811LW4
20. BL-28TE9MX9
21. BL-28WE1Y74
22. BL-285E37DV
23. BL-2857UC43

NOTE: 2 of the above numbers returned absolutely no records during my audit. If I was given the wrong numbers, I expect the correct ones are found & dismissed as well.

Sincerely,

Zachary Michael Mosley

Wilmington Island, GA

Second Written Request & Notice of Dispute (5th in total attempt to get clarification) Comprehensive Documentation Required for Full Clarity.

I am acknowledging your reply; however, your response did not address any of the procedural defects documented in my formal notice dated February 5, 2026.

To ensure accuracy and prevent further miscommunication, I will be handling this matter exclusively in writing. Written communication is the only appropriate format when statutory requirements, administrative procedures, and recordkeeping integrity are at issue.

Additionally, due to a neurodevelopmental condition (ADHD), navigating 23 separate online records is an overwhelming, day-long process, and your system's design makes it difficult to reliably access or transcribe citation information. I require all documentation to be provided directly and in consolidated written form.

Your request for a copy of my registration is noted, as is your refusal to provide any clarification or acknowledgment of my concerns and dispute. This is now the third channel through which I have clearly outlined my concerns and disputed the validity of these citations. Furthermore, your own message stated that citations are mailed to the address on the vehicle registration at the time of the alleged violation. If that is the case, then your office already possesses the registration information you are requesting. Please provide a written explanation for why this information is being requested again.

Below is a comprehensive list of documentation and clarifications required to complete my audit of the alleged violations.

--

1. Duplicate and Rapid-Sequence Citations

-Two citations were issued within one minute of each other in Thunderbolt on the same day.
- Confirm whether issuing multiple citations within a one-minute interval is standard procedure.
- Provide the written policy or statute authorizing this practice.

-There are at least three (possibly five) separate dates where more than one citation was issued on the same day, in the same location, as I exited my residence.
- Confirm whether issuing multiple citations to the same vehicle on the same day is standard protocol.
- Provide the written policy or statute authorizing this practice.

--

2. Officer Review and Internal Controls

-All but one Penn Waller citation were issued by the same officer, Roger Flannery.
- Confirm whether it is standard operating procedure for a single officer to issue multiple citations to the same vehicle, on the same road, across multiple dates.
- Provide internal controls, supervisory review procedures, and audit mechanisms governing repeated same-officer, same-location citation patterns.
- Provide the officer's sign-off procedure, checklist, and training requirements for citation review.

--

3. Physical Feasibility, Signage, and Enforceability

- My residence exit is approximately 50 feet from the Penn Waller camera. There is no posted 35 mph sign between my exit and the camera. The only partially visible sign is a 25 mph school-zone sign that flashes during limited windows, and it is unclear whether the non-flashing state indicates a return to 35 mph or whether the 25 mph limit remains in effect, & the times enforced are far too small to read as I'm making a sharp left turn. From where I exit my complex its not clear what it says as its perpendicular to me.

Please provide:

- The written methodology used to determine that a vehicle can accelerate from a complete stop to the alleged speeds (e.g., 47 mph) within approximately 50-70 feet.
- Engineering or calibration documentation supporting the speed readings at that location.
- The posted speed limit in effect at the exact time of each alleged violation.
- The school-zone enforcement schedule and signage requirements.
- The statutory or procedural basis for issuing citations where signage is ambiguous or not visible prior to the capture zone.

--

4. Missing or Unavailable Citation Records

Multiple citation numbers returned "no record found" during my audit.
- Confirm whether these citations exist in your system.
- Provide written clarification for the discrepancy.

--

5. Law Enforcement Database Discrepancy

A law-enforcement officer ran my vehicle on January 31, 2026 and saw no violations or holds.

- Explain how 23 alleged unpaid citations were not visible to law enforcement if they were validly issued and properly referred.

--

****6. Statutory Notice Requirements****

No citation notices were ever delivered to my DDS-verified address, as required under O.C.G.A. 40-14-18(b)(2).

- Provide a written explanation for why statutory notice was not perfected.
- Provide proof of mailing, proof of delivery, and any returned-mail logs.

****7. Full Citation Documentation (for Each Citation)****

Please provide the following for each citation:

- Full citation record
- Date, time, and alleged speed
- Camera device ID
- Calibration logs for the device on the date of the alleged violation
- Maintenance logs for the device
- Error-rate disclosures
- Chain-of-custody documentation for the evidence
- Officer review/sign-off documentation
- Officer identification and badge number
- Internal QA or supervisory review notes
- The address to which each notice was mailed
- Proof of mailing and delivery
- Statutory authority for the citation
- Procedural authority for the citation

****8. System Accessibility and Reliability****

Your online system does not reliably display citation records, and several citation numbers returned "no record found."

- I am not required to reconstruct your enforcement record through a third-party website.
- Provide all citation documentation directly.

****9. Camera Location Map and Jurisdictional Documentation****

Please provide a complete map of all speed-enforcement camera locations under your jurisdiction, including:

- Physical location of each camera
- Jurisdiction or municipality responsible
- Statutory authorization for each location
- Signage requirements
- Signage placement maps
- School-zone enforcement schedules
- Installation and activation dates
- Engineering studies or placement justifications
- Camera capture-zone specifications
- Line-of-sight documentation

****10. Vendor, System, and Operational Documentation****

Please provide:

- Vendor contract with the municipality
- Subcontractor list
- Data retention policies
- Data deletion policies
- Software versioning
- Algorithmic detection methods
- False-positive mitigation protocols
- System uptime logs
- Camera downtime logs
- Internal audit procedures
- External audit results (if any)
- Appeals procedures
- Public records compliance documentation

****11. Statutory and Procedural Authority****

12. Please provide the statutory or procedural authority for:

- Issuing multiple citations per day
- Issuing citations within one minute
- Camera placement within 50 feet of a residential exit
- Enforcement in areas with ambiguous signage
- School-zone enforcement windows
- Calibration requirements
- Officer review requirements
- Vendor involvement in citation issuance

--
Record Preservation

For transparency and accuracy, this entire correspondence is already preserved in immutable, cryptographically timestamped form to ensure a complete and verifiable record.

Please escalate this matter to a supervisor or compliance officer who can provide a substantive written response addressing all items listed above, in a timely manner so I may resume making a living, & avoid further hardship & possible eviction if I am unable to get back to work as soon as possible.

I will await your written reply.

Sincerely,
Zachary Michael Mosley
